Subject: We're Seeking Feedback on Connecticut's Draft Healthcare Innovation Plan

1. Transportation: DSS beleives That If You Are On Welfare You Are Not Working and Be Disabled Or Have Doctor Appointments. The Logisticare Cab Contracted Company Has A Policy That I Among Others In My Shoes Cannot Get Picked Up From Work To Go To An Appointment. There Needs To be a Provision For That.
 2. I See A Chiropracter And a Accupuntcurist person For My Carpul Tunnel Syndrome. Chiropractioners are not considered doctors to the logisticare cab does not go to any chiropracter even though it was a referral from my primary.
 3. I Have Chrmic Fatigue Syndrome and PICCA disease I need To See A Endocronologist There Is No Provision For That.
 4. I Have Not Gotten New pair Of Glasses Since Mine Were broken For Almost 2yrs Because I Am Only Allowd 1 per year. Why Are Children Getting New Glasses w/o charge and adults cannot even get one replcement?
 5. I do not want flouride, or mercury in my teeth when I go to the dentiist. I do not want in for my children eithjer. Floride is in food, water, toothpatse so why have it also at the dentist office to make sure we are affected adversly?
 6. Why Are Podiatrist Dropping Off Like Flies And DSs Husky A Physician Roster Is Antquated With Most Doctors Not Participating Anymore? Need Up-to-date Physicain Listings.
 7. After I Leave The Emergency Room With My Son Who Chronically Has Asthma Attacks And Sleep Apnea To Facilitate The Attacks. I HAVe To Wait 4-6 hours Before a medical cab has decided to come and pick my family up from the hospital. Many Times I HAd To Walk Home With My Sick Children Becase I Could Not Wait Any Longer. How Can That be Changed?
