Hi Mark - congratulations on an awesome and comprehensive beginning to this major project. Obviously, a tremendous amount of effort went into the initial draft and the presentation.

If either I or our VNA here in Guilford can be of assistance to you for any reason, please feel totally free to call on us. We are very interested in the various models and demonstrations that are getting underway. We try very hard to stay up front on how community healthcare can play an increasingly important role in the future of community home care services. We will be part of the solution.

Thanks very much.

**Richard J. Corcoran**
